At: Mr. Peter Burger, Mr. Christian Grabmaier

Appreciation Notice

During 2012 we at TowerJazz Israel Site have search for a solution to dilute developer and reduce operational cost at our plant.

We choose PUERSTINGER Company for this project and I would like to express my gratitude and to thank PUERSTINGER team and especially, Mr. Peter Berger and Mr. Christian Grabmaier, for their dedication motivation and great support during and after this project was completed, as a team we manage to develop a great solution that provide an answer to all our process, technical and operational needs , the system has been working for almost a year and we are very pleased and satisfies with its performance reputability and capability. The system accuracy is +/-0.002% and the target is 2.38% TMAH.

So far the deletion unit has successfully mfr over 500 batches (1500 liter each) and we gain a significant cost reduction for our developer usage (more than 70% cost reduction).
